Our Commitment

Provide spaces where diverse learners can achieve their goals

Connect with faculty and students to deliver information and scholarship tailored to their research and learning needs

Encourage students to critically engage with information through curriculum-focused library instruction

Develop a virtual presence that supports self-service and connects our learning community to library staff

Learning & Growth For Library Staff

Promote a culture of professional development among all staff

Formalize performance management with an emphasis on strategic goals and clearly defined expectations

Skillful Stewardship

Manage materials & metadata to maximize return on investment in the user experience

Transform the role of the liaison librarian to better engage our campus community

Leverage user-centered assessment to tailor library processes, technologies and services

Communicate consistently with stakeholders to convey the value of the Libraries

Strengthening of our Financial Resources

Actively pursue external investment in support of strategic goals

Maximize university investment through effective stewardship, focused on Human Resources and Collections
